

Company	Product name	Category	Marketing status
Arasan	CAN XL bus controller IP	CAN XL protocol intellectual property (IP) core	in stock
Bosch	X_CAN	CAN XL protocol intellectual property (IP) core	in stock
	XS_CAN	CAN XL protocol intellectual property (IP) core	under development
	SX601/SX600 - Radar SoC	System on chip (SoC) with on-chip CAN XL protocol controller	in stock
	NT156	CAN SIC XL transceiver	samples
	Internal prototype for evaluation	CAN SIC XL transceiver	prototype
	CAN XL driver for FPGA evaluation version of the CAN XL IP	CAN XL software	in stock
C&S group	CAN XL evaluation board	CAN XL board-level product	in stock
	INVIO (in-vehicle network validation tool)	CAN XL validation tool	in stock
	CAN XL physical layer interoperability test system	CAN XL test system	in stock
	CAN XL physical layer conformance test system	CAN XL test system	in stock
	CAN XL data link layer conformance test system	CAN XL test system	in stock (from 2025/Q2)
	CAN XL data link layer robustness test system	CAN XL test system	in stock (from 2025/Q2)
DCD-SEMI	DCAN XL IP	CAN XL protocol intellectual property (IP)	in stock
ETAS	ES882 – BR_XETK ECU and bus interface module	CAN XL board-level product	in stock
	ES886 – BR_XETK ECU and bus interface module	CAN XL board-level product	in stock
	ES89x – FETK ECU and bus interface modules	CAN XL board-level product	in stock
Fraunhofer IPMS/CAST	CAN-CTRL	CAN XL protocol intellectual property (IP) core	in stock
Infineon	32-bit TriCore™ AURIX™– TC4x	MCU with on-chip CAN XL protocol controller	engineering samples
Keysight Technologies	D9010AUTP automotive protocol decode/trigger software for Infiniium oscilloscopes	Decoder/trigger for oscilloscopes	in stock
MicroSys	Miriac MPX-S32Z system on module (SoM)	CAN XL board-level product	in stock
NXP	S32N55 vehicle super-integration processor	MCU with on-chip CAN XL protocol controller	pre-production samples
	S32Z2 safe and secure high-performance real-time processors	MCU with on-chip CAN XL protocol controller	pre-production samples
	S32E2 safe and secure high-performance real-time processors with actuation support	MCU with on-chip CAN XL protocol controller	pre-production samples
	S32K5 automotive microcontrollers	MCU with on-chip CAN XL protocol controller	samples (from end of 2025/Q3)
PEAK-System	CAN XL starter package	CAN XL interface board	pre-production sample
Pico Technology	PicoScope 7 oscilloscope software	Decoder/trigger for oscilloscopes	in stock
	PicoScope USB oscilloscope selector	Decoder/trigger for oscilloscopes	in stock
Renesas	RH850/U2B vehicle motion microcontroller series	MCU with on-chip CAN XL protocol controller	prototype
Rohde & Schwarz	R&S MXO 4 oscilloscope	Decoder/trigger for oscilloscopes	in stock
	R&S MXO 5 oscilloscope	Decoder/trigger for oscilloscopes	in stock
	R&S MXO 5C oscilloscope	Decoder/trigger for oscilloscopes	in stock
Silicon Mobility	Adaptive control unit U310	MCU with on-chip CAN XL protocol controller	prototype
STMicroelectronics	SR6P6C4 - Stellar SR6 P6 line	MCU with on-chip CAN XL protocol controller	proposal
Teledyne LeCroy	CAN XL trigger decode (TD) solution	Decoder/trigger for oscilloscopes	in stock
	CAN XL TDME symbolic	Decoder/trigger for oscilloscopes	in stock
Texas Instruments	TCAN6062-Q1	CAN SIC XL transceiver	stand-alone engineering sample
Vector	Vector CANoe (since version 17)	CAN XL development and test tool	in stock
	Vector CANalyzer (since version 17)	CAN XL analyzing tool	in stock
	Vector Microsar for CAN XL	CAN XL software	prototype
	Vector network interfaces VN1641 and VN1670	CAN XL board-level product	in stock
	CANoe/CANalyzer option scope	Decoder/trigger for oscilloscopes	in stock
Volkswagen (GitHub)	CAN XL support for Linux Kernel version 6.1 and higher	CAN XL software	in stock
	Linux PoC (proof of concept) for CiA 613-3 XL frame fragmentation	CAN XL software	in stock
